

Offering Intelligent Content Production that works for
Agencies and Brands

...in online, photography, film, CGI, augmented and virtual reality,
graphic design, audio and so much more.
Effective content

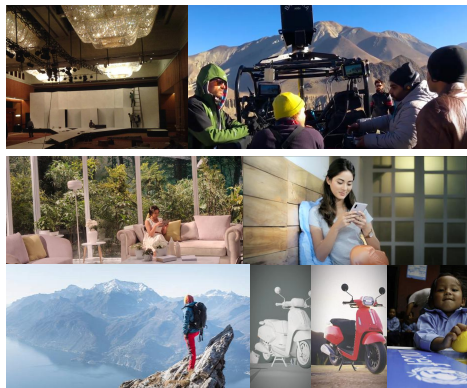

With over 5 years of experience, we are the best and fastest partner
in content production and digital platform development. Using our
digital expertise and business intelligence insights, we create
effective content for your business.

Largest independent set up

We can safely claim that our scale of operations is unique.
We have dedicated in-house teams for concept
development, content production and platform & app
building. With 2000 m² of studio facilities and workspace,
we privately own the largest independent set up in Nepal.

Fully equipped team

These fully equipped studios are manned by in-house teams of set-builders, carpenters, set designers and stylists. Together with the lighting, camera and special fx departments, they are ready to bring any content dream to life.

If you can imagine it, we can create it, produce it and optimise it – again and again!

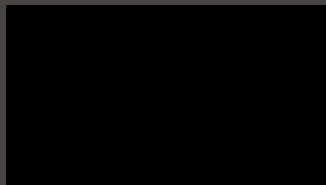

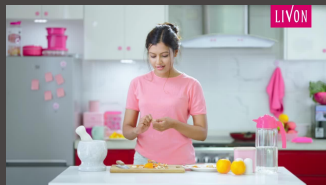

WE WORK FOR THE COOLEST BRANDS
